Hospital Cubicle Tracking

We have developed relationships with most of the major brands of tracking available in the country. We are also able to supply the latest quick release systems as well as a solid topped model that does not require a rubber dust cap.

Perfect Fit

Designed specifically for modern UPVC Double glazed windows and doors, this product has the benefit of fitting directly to the frame. Simple no-damage clips are used to retain an Aluminium framework, to which the blind has already been fitted. As guide wires can be specified the product is ideally suited to the latest inward opening tilt and turn windows. Currently available with either 20mm Pleated Blinds or 25mm Venetians a fully co-ordinated look can be achieved throughout the installation premises.

Awnings & Canopies

Macassar Blinds is able to supply Awnings and Canopies to meet most customer needs. From shops to health clubs and private houses, we can cater for their outdoor shading requirements. The structural integrity of the wall is of utmost importance for these products, and we will take this into account when providing a quotation.

Velux Windows

We are registered suppliers of original Velux Window Blinds. Alongside the ready-to-fit kits available from Velux, we also have access to an OEM system that allows us to fit them with most fabrics from our range enabling the client to co-ordinate the whole installation.

We simply need the code number that is stamped on the plate found on the opening vent, and we can guarantee an original equipment perfect fit.

Roof Blinds

Macassar Blinds has a range of blinds available to cover most roof openings. These vary from the simple manual pleated blinds that run on nylon cords to electric, double ended systems that can be up to 5m wide and 8m long.

A wide range of fabrics is available from dim-out, through SunScreen to black-out to give the best possible choice to the client.

Conservatory Blinds

Blinds for conservatories are becoming more and more popular to control the heat gain in the summer, and reduce the chill of the winter, making the space useable all year. Our range of blinds helps customer's to achieve year round use of their investment.
